Furthermore, considering the Company's financial results in which decreases in both revenues and profits were recorded for two consecutive terms, the Company hopes to commence a review of its business portfolio, and to this end, it will proactively invest in new business development and infrastructure development, including information systems.

As a result of the above, for the fiscal year ending March 31, 2028, the Company projects net sales of ¥47,066 million, and in terms of profits, operating profit of ¥3,026 million, ordinary profit of ¥3,023 million, and profit attributable to owners of parent of ¥2,058 million, as it will make proactive investments.
